

Mokbel Karam  
Graduate Research Assistant  
Department of Chemical Engineering  
The University of Utah  
Salt Lake City, UT 84112, USA  
Phone: +1 (801) 300-9396  
email: mokbel.karam@chemeng.utah.edu

## Research Interests

---

My research focuses on increasing the efficiency of numerical techniques for simulating reacting flows using supercomputers. I am focused on producing and developing methods that help to reduce the computational cost involved in these simulations. Following this objective, I worked on projects in different areas involving: Low-Mach-number flows, Pressure Projection Methods, Modified Equations, Machine Learning, Computational Fluid Dynamics, Simulation Science, Parallel Computing.

## Education

---

- 2017–      Ph.D. Candidate, Chemical Engineering Department / University of Utah, Salt Lake City Utah
- Current GPA: 3.902
- 2013–17    Bachelor in Mechanical Engineering / Notre Dame University, Zouk Mosbeh, Lebanon
- Graduated with a GPA of 3.89, Highest distinction.
  - Dean's List for all semesters
  - Scholarship: 75% Scholarship, all semesters

## Skills

---

### Communication Skills:

- Leadership skills: President of the American Society of Mechanical Engineers student section at NDU-North Lebanon Campus in 2013-2014.
- Languages: English, French (Fair), Arabic (Native Language)

### Computer Skills:

C++, Object Oriented Programming (OOP), Python, Tensorflow, Sci-kit Learn, Sympy (symbolic library Python), Matlab, Web app development using Dash Python, Latex.

## Publications

---

- 2020      **Mokbel Karam**, Tony Saad "Stability of Low-Cost Runge Kutta Schemes for Incompressible-Navier Stokes Equations", 2020 AIAA Computational Fluid Dynamics Conference, AIAA Aviation Forum, under review.
- 2020      **Mokbel Karam**, James C. Sutherland, and Tony Saad, "MOIRA: A Python Software for Modified Equation Generation", SoftwareX, under review.

- 2019 **Mokbel Karam**, Tony Saad, Michael Hansen, and James C. Sutherland, "A Framework for Analyzing the Temporal Accuracy of Pressure Projection Methods", 2019 AIAA Computational Fluid Dynamics Conference, AIAA Aviation Forum, (AIAA 2019-3634).
- 2018 Tony Saad, **Mokbel Karam**, and James C. Sutherland, "An Explicit Variable-Density Projection Method for Low-Mach Reacting Flows on Structured Uniform Grids", 2018 Fluid Dynamics Conference, AIAA Aviation Forum, (AIAA 2018-4266).

## Presentations

---

- 2020 **Mokbel Karam**, Tony Saad "Stability of Low-Cost Runge Kutta Schemes for Incompressible-Navier Stokes Equations", 2020 AIAA Computational Fluid Dynamics Conference, AIAA Aviation Forum.
- 2019 **Mokbel Karam**, Tony Saad "Efficient Runge-Kutta Methods for Incompressible Flow", 2019 Graduate Symposium, Chemical Engineering Department, The University of Utah.
- 2019 **Mokbel Karam**, Tony Saad "On a Class of High-Order, Low-Cost Time Integrators for the Navier-Stokes Equations", 2019 Rocky Mountain Fluid Mechanics (RMFM) Research Symposium, CU Boulder.
- 2019 **Mokbel Karam**, Tony Saad, Michael Hansen, and James C. Sutherland, "A Framework for Analyzing the Temporal Accuracy of Pressure Projection Methods", 2019 AIAA Computational Fluid Dynamics Conference, AIAA Aviation Forum, (AIAA 2019-3634).
- 2019 **Mokbel Karam**, Tony Saad, and James C. Sutherland, "Efficient Multistage Time Integrators for Incompressible Flows Using Projection Methods", SIAM Conference on Computational Science and Engineering.
- 2019 **Mokbel Karam**, Fady Najjar, Ming Jiang, James Sutherland, and Tony Saad. "Exploring the Predictability of Random Forests & Deep Neural Networks for the Sedov-Von Neumann-Taylor Blast Wave Solution", SIAM Conference on Computational Science and Engineering.
- 2018 Tony Saad, **Mokbel Karam**, and James C. Sutherland, "An Explicit Variable-Density Projection Method for Low-Mach Reacting Flows on Structured Uniform Grids", 2018 Fluid Dynamics Conference, AIAA Aviation Forum, (AIAA 2018-4266)
- 2018 **Mokbel Karam**, Fady Najjar, Ming Jiang, James Sutherland, and Tony Saad. "Applying Machine Learning to the Sedov-von Neumann-Taylor Blast Wave", 2018 Rocky Mountain Fluid Mechanics (RMFM) Research Symposium, CU Boulder.
- 2018 **Mokbel Karam**, Fady Najjar, Ming Jiang, James Sutherland, and Tony Saad. "Applying Machine Learning to the Sedov-von Neumann-Taylor Blast Wave", Seminar, Lawrence Livermore National Laboratory.

## Experience

---

- 2018 Internship at Lawrence Livermore National Laboratory with 10 weeks focus on Machine Learning, funded by the Predictive Science Academic Alliance Program II, Livermore CA , from June 4th to August 10th.
- 2016 Gained one month of experience in maintenance of kilns at a cement plant, August 2016
- 2016 Gained one month of experience in maintenance of refrigeration system at a food processing company, July 2016
- Have been tutoring Math and physics lessons for high school students.

## Reference

---

### **Prof. Tony Saad**

Assistant Professor,  
Department of Chemical Engineering,  
University of Utah,  
Salt Lake City, UT 84112, USA  
tony.saad@chemeng.utah.edu

### **Prof. James C. Sutherland**

Professor,  
Department of Chemical Engineering,  
University of Utah,  
Salt Lake City, UT 84112, USA  
james.sutherland@chemeng.utah.edu

### **Dr. Fady Najjar**

Design physicist, Ph.D.,  
Lawrence Livermore National Laboratory,  
Livermore, CA 94550, USA  
najjar2@llnl.gov

### **Prof. Chady Ghnatio**

Assistant Professor,  
Department Mechanical Engineering,  
Notre Dame University,  
Zouk Mosbeh, Lebanon
